INVITATION

SITE 2016 is the annual conference of the Society for Information Technology and Teacher Education. This society represents individual teacher educators and affiliated organizations of teacher educators in all disciplines, who are interested in the creation and dissemination of knowledge about the use of information technology in teacher education and faculty/staff development. SITE is a society of the Association for the Advancement of Computing in Education (AACE).

SITE is unique as the only organization which has as its sole focus the integration of instructional technologies into teacher education programs. SITE promotes the development and dissemination of theoretical knowledge, conceptual research, and professional practice knowledge through conferences, books, projects, and the Journal of Technology and Teacher Education (JTATE).

You are invited to attend and participate in this annual international forum which offers numerous opportunities to share your ideas, explore the research, development, and applications, and to network with the leaders in this important field of teacher education and technology.

Over 1,500 presentations in 30 major topic areas!

The Conference Review Policy requires that each proposal will be peer reviewed by three reviewers for inclusion in the conference program and Proceedings.

SITE is the premier international conference in this field and annually attracts more than 1,200 leaders in the field from over 60 countries.

Scope

The Conference invites proposals from the introductory through advanced level on all topics related to:

(1) the use of information technology in teacher education, and
(2) instruction about information technology in

- Preservice
- Inservice
- Graduate Teacher Education
- Faculty & Staff Development

Proposals which address the theory, research and applications as well as describe innovative projects are encouraged.

Presentation Categories

The Technical Program includes a wide range of interesting and useful activities designed to facilitate the exchange of ideas and information.

- Keynote Speakers
- Full & Brief Papers
- Best Practices Session

- Invited Panels/Speakers
- Panels
- Roundtables
- Corporate Demos/Literature
- Workshops
- Virtual Brief Papers
- Virtual Corporate Presentations

Proposals which address the theory, research and applications as well as describe innovative projects are encouraged.

Corporate Participation

The SITE conference gives you the unique opportunity to present your company's Net related products to an international forum at a discounted rate. Within the special Industry track, SITE will allocate a 30 minute (Corporate Showcase) or 2 hour (Poster/Demo) period in the Program for your presentation.

Information for Presenters

- All communication will be with the contact author and/or principal presenter who is responsible for communicating with co-presenters of that session.
- The conference will attempt to secure basic equipment needs for presenters, with the exception of poster/demonstration presenters. However, when equipment cannot be obtained, presenters will need to bring or rent equipment. The name of a rental firm can be provided if needed.
- Presenters must pay the registration fee.

The SITE Conference is designed for

- Teacher educators in ALL disciplines

New Topic for K-12 Teachers & School Leaders

- Teaching with Technology: Classroom Applications for 21st Century Learning – A Forum for Teachers and School Leaders

SITE Proceedings & LearnTechLib Digital Library

Accepted papers will be published in the Conference Proceedings and internationally distributed via LearnTechLib — The Learning and Technology Library **(LearnTechLib.org)**. This Proceedings serves as a major source document indicating the current state of teacher education and information technology. Each Conference registrant will receive permanent online access to the Conference Proceedings. Selected papers may be invited for publication in AACE's respected journals especially in the Journal of Technology and Teacher Education (JTATE). See: **aace.org/pubs**

Paper Awards

All presented papers will be considered for Best Paper Awards within several categories. Award winning papers may be invited for publication in the Journal of Technology and Teacher Education (JTATE) or Contemporary Issues in Technology & Teacher Education (CITE).

Hotel & Travel Arrangements

Special hotel room rates will be available to conference attendees. Please see **site.aace.org/conf** for hotel information and rates.

Teaching with Technology: A Forum for Teachers & School Leaders

Teachers and School Leaders are invited to participate in sessions on practical, effective ways to teach with technology in today's schools.

Who Should Attend the Teaching with Technology Forum: K-12 Teachers, School Administrators, School Technology Coordinators.

Overview

- Classroom-related, practical sessions will be offered from most SITE Conference topics.
- Linking in-school learning with social media can make education more relevant, meaningful, and connected.
- Educational leaders will share practical ways to bridge conventional school practice with informal learning.
- Web 2.0 technologies and sites are becoming an integral part of youth culture.
- In an era of globalization and a world that is increasingly flat, effective use of social media is rapidly becoming a vital 21st Century skill.
- Educators can tap students' enthusiasm and creativity to shape and carry out their education agenda while preparing students for the workforce of the future.

Many practical, classroom sessions will be offered including but not restricted to:

- Mathematics, Science, English, and Social Studies Teaching
- Games & Simulations, Assessment, E-folios, Distance learning, and more
- Digital Video in Mathematics, Science, Language Arts, and Social Studies Classrooms and After-school Programs.
- Web 2.0 Sessions (blogging, podcasting, etc.)

Registration: The Teaching with Technology Forum will span two days within the larger SITE conference. A separate program will be provided for local teachers and technology coordinators who register for it. A discounted K-12 teacher registration rate offered for teachers includes the Forum and entire SITE conference.

Continuing Education Credits: SITE will provide upon request a Certificate of Participation to document your participation in the Teaching with Technology Forum and SITE Conference.

Visit the SITE Blog, Your central source for announcements, resources, and ideas from SITE and your colleagues in teacher education and technology.

CITE CONTEMPORARY ISSUES IN TECHNOLOGY & TEACHER EDUCATIO

Contemporary Issues in Technology and Teacher Education (CITE) is an electronic publication of the Society for Information Technology and Teacher Education (SITE), established as a multimedia, interactive electronic counterpart of the *Journal of Technology and Teacher Education*. Funded by a U.S. Department of Education Preparing Tomorrow's Teachers to Use Technology (PT3) catalyst grant, *CITE* makes possible the inclusion of sound, animated images, and simulation, as well as allowing for ongoing, immediate dialog about theoretical issues.

Subscriptions are at no cost due to a PT3 grant from the U.S. Dept. of Education

Each professional society has sole responsibility for editorial review of articles in its discipline. This is the only joint venture of this kind in the field of teacher education.

The *CITE* Journal includes three major categories of articles.

1. **Current Issues** include theoretical discussions of technology and teacher preparation. Articles address technology and teacher education, assessment, attitudes, beliefs, curriculum, equity, research, translating research into practice, learning theory, alternative concepts, sociocultural issues, special populations, and integration of subjects.
2. **Current Practice** offers brief, up-to-the-minute snapshots of technology in practice.
3. **Seminal Articles** republish classic works that are landmarks in technology and teacher education.

Current Issues Articles

The respective professional societies for each of the following disciplines have sole responsibility for editorial review of Current Issues articles in their discipline:

- **Science Education:** Association for the Education of Teachers in Science (AETS)
- **Mathematics Education:** Association of Mathematics Teacher Educators (AMTE)
- **English Education:** Conference on English Education (CEE)
- **Social Studies Education:** National Council of Social Studies College and University Faculty Assembly (CUFA)
- General Technology: Society for Information Technology and Teacher Education (SITE)

Complimentary subscriptions - Article submissions invited!

SITE REVIEW POLICY

SITE conference submissions are peer-reviewed by at least two reviewers, and usually three reviewers, who are members the conference's international Program Committee of experts in fields specifically matching the conference topics. Papers are subject to a double-blind review. Reviewers are required to provide the author with comments intended to improve the content, style, and other issues which should improve the quality of the article.

If the review results are not clear, at least two members of the conference's Program Committee decide whether a paper can be accepted or not, and in which presentation category.

A review of all papers receiving high review scores is undertaken by all the members of the Board to nominate outstanding papers.

Submission evaluation criteria:
Potential value/impact of research or developments; Relevance to conference; Originality; Style: Clarity, Length, Originality, Etc.

Acceptance rate: The acceptance rate for SITE conferences is 25-39%.

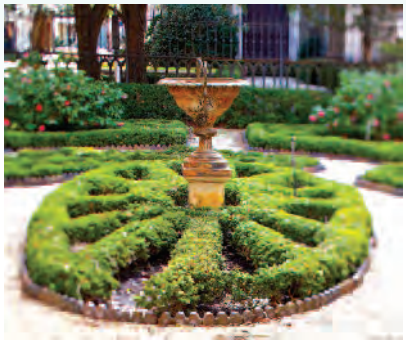
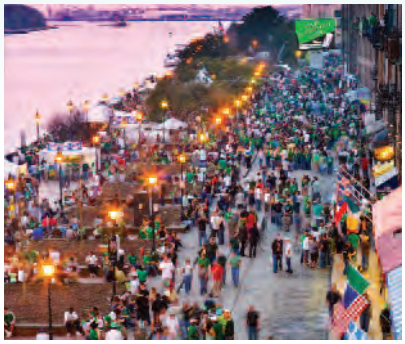
Savannah

Coastal Gem of Georgia





Savannah is a Southern city whose charm is something out of a fairytale – it's the most beautiful city in the nation and we're not just saying that – Savannah actually earned this title when USA Weekend Magazine declared Savannah one of the "Top 10 Most Beautiful Places in America." You won't be surprised once you walk along any of the 22 city squares, with beautiful public gardens and streets lined in hundred year-old oaks. Even with the nation's largest registered Urban Historic Landmark District, Savannah's 22 green squares and 1,600+ historically and architecturally significant structures are all just within a 2.5 square mile area. You can wear your walking shoes and stroll the Historic District for some of the city's best views.

When you're in Savannah, you know you're somewhere special. The city is the oldest in the state of Georgia, and its deep-rooted history and culture are woven into everyday life. The character and charm of Savannah have ripened over time by looking to its heritage – honoring and loving it – then driving forward for change and to realize dreams. From a port city of pirates and plantations, to being a modern-day hub for innovation, Savannah has a long history of technological advancement – including building the first cotton gin and the first steamship that crossed the ocean. It's also headquarters to a host of technology-related business, from giant Gulfstream Aerospace to smaller graphic design and software development pioneers. Savannah is also home to one of the largest art schools in the country, Savannah College of Art and Design (SCAD). Theater, film and music scenes are also vibrant throughout the city.

Located on the Savannah River and just 20 minutes from the Atlantic Ocean, Savannah is where the elite come to eat and Southerners come to celebrate! Quickly becoming as famous for its food as it is for its historic sights, Savannah boasts Fresh local seafood, Southern home cooking and nationally known chefs as the main ingredients of a phenomenal cuisine scene. With more than 150 festivals, parades and holiday events each year, Savannah is also all about celebration. Music, art, culture and food are just a few of the excuses for city-wide parties. The Savannah Saint Patrick's Day celebration is one of the oldest and largest in the nation. Every March 17, the city grows by a half-million or so, all here to wear green and enjoy the city's sprawling celebrations.

If the excitement of the city proves too much, you can easily take a day trip to a coastal island just 20 minutes from Savannah's Historic District. Fun and funky Tybee Island offers sand, sea and history, plus more great food and adorably quaint accommodations. Tybee also hosts a wildlife refuge and is home to dozens of notable varieties of birds, turtles and other precious species.

Whether you want to walk through history in the gorgeous city squares, or enjoy a plate full of comfort served with warm Southern hospitality, or just to explore the shores of Georgia's coastal gem, we hope you'll join us in Savannah for SITE 2016!
